PROFESSIONAL EXPERIENCE

Senior Web Developer / Full-Stack & WordPress Specialist

May 2021 – May 2026

Growmodo – Remote

- Architected, developed, and optimized custom WordPress, Webflow, and Shopify websites for international clients, ensuring optimal speed, cross-browser compatibility, and seamless UX/UI.
- Integrated modern full-stack web technologies including Next.js, React, and Node.js to create robust, scalable single-page and multi-page web applications.
- Implemented third-party API integrations, complex Zapier workflows, and web automation tools to increase operational efficiency for businesses.
- Collaborated closely with cross-functional design and product management teams to convert Figma prototypes into pixel-perfect, interactive frontend components.

Web Developer / WordPress & Shopify Developer

November 2014 – October 2022

Net Fusion Technology – Remote

- Led the end-to-end development of custom e-commerce stores using Shopify and e-commerce platforms, optimizing conversion funnels and checkout flows.
- Engineered tailored WordPress plugins and child themes from scratch, strictly adhering to clean coding standards and web performance best practices.
- Managed secure migration, hosting configurations, and databases (MySQL) for high-traffic enterprise web assets.
- Monitored and boosted website performance metrics using Google Analytics and Core Web Vitals diagnostic tools.

Web Developer / WordPress Developer

October 2015 – April 2019

Glue Digital – Remote

- Built responsive, dynamic web solutions specializing in customized WordPress infrastructures and headless CMS integrations.
- Utilized frontend frameworks and preprocessors (SASS/Bootstrap/Tailwind) to execute precise, interactive layout styling.
- Resolved critical security, cross-origin, and backend issues to ensure robust site stability and 99.9% uptime.

WordPress Developer

April 2014 – August 2015

Capital Tech Co – Angeles, Pampanga, Philippines

- Developed fully customizable and client-ready WordPress websites using theme builders, custom hooks, and standard PHP methods.

WordPress Developer

February 2015 – September 2015

Powered Web Dev – Angeles, Pampanga, Philippines

- Coordinated on the development of bespoke plugins and user-facing dynamic interfaces using PHP and AJAX queries.

WordPress Developer

May 2014 – January 2015

Build Page – San Fernando, Pampanga, Philippines

- Assembled localized multi-tier small business websites focused on high-speed optimization and structural SEO foundation.

Junior Software & Web Developer (OJT)

November 2013 – March 2014

DHVTSU MIS – Bacolor, Pampanga, Philippines

- Assisted the core Management Information Systems team in building internal university portals and managing local database arrays.
